

## HOME SAFETY CHECKLIST

GENERAL QUESTIONS	YES	NO	CHANGES TO BE MADE
When climbing and reaching high places, do you use a sturdy step stool with handrails?			
Do any of your medications cause you dizziness?			
Are your stairways, hallways, and pathways well lighted with easy to reach switches?			
Are your pathways tidy?			
Are all carpets removed or fixed firmly to the floors?			
Do you have smooth tile or wood floors that create a slip hazard?			
Are all electrical cords and telephone wires near walls and away from walking paths?			
Are all of your furniture and other objects placed so they are not in your way when entering a room or approaching a chair?			
Are any of your sofas and chairs a good height for you, so that you can get into and out of them easily?			
Have you placed nightlights and light switches close to your bed?			
Do you have plenty of daylight in the house?
